

When Darkness Falls

Song Lyrics

7. TRUTH

Words unsaid, running scared
False deception, self protection, unprepared
Seeking truth, only truth, through the lies that
Try to fool me, simple truth

Look to the sky
See how the sun shines out through the rain today
Why to you hide
Thinking the mist will wipe out the tears and pain
Safe in the shadows you've made
Hiding behind what you say,
Safe in the shade

For today, you can stay
Safe within the life you've made to smooth your way.
Closed and sure, behind the door
Covered over, never shown for fear of shame

Like a pearl, buried deep
In the darkness, in the shadows, lost in sleep
Truth is found, always found,
Wrapped in secrets, buried deep but always found
Truth is found
